Index to Volume III

Absorption, disorders of, serum studies after administration of vitamin A acetate and vitamin A alcohol, **74**
Acanthosis nigricans, incomplete form of, **269**
Alimentary tract, use of telemetering capsules in, **366**, **371**
ALLEN, G. T., *see* SWAN, A., ALLEN, G. T., and TANNER, N. C.
Amino-acids, absorption, from casein preparation, **95**
Ammonia, high blood levels, extra-corporeal methods of reducing, **172**
Anaemia, pernicious, electrophoresis of gastric juice in patients with, **355**
ANDREASSEN, M., LINDENBERG, J., and WINKLER, K.: Peripheral ligation of hepatic artery during surgery in non-cirrhotic patients, **167**
Angiography, selective pancreatic, **93**
Anticholinergic drugs, effect on mucus content of gastric juice, **177**
— —, newer, comparison with atropine, **65**
Anus and rectum, malformation of, results of operation for, **245**
Appendicitis in children and young adults, influence of sex and age, **80**
ARDRAN, C. M., and KEMP, F. H.: Impaired motility in the pharynx and oesophagus (*film*), **94**
Arthritis, poly-, subcutaneous fat necrosis and pancreatic disease, **146**
ATKINSON, M.: Mechanisms protecting against gastro-intestinal reflux: a review, **1**
Atropine, comparison of newer anti-cholinergic agents with, **65**

BADAWI, H. S., NOMEIR, A. M., and ZAHER, R. A.: Factors influencing bromsulphalein retention and its evaluation in bilharzial hepatic fibrosis, **318**
BARCLAY, T. H. C., and KENT, H. P.: The diagnosis of primary tumours of the duodenum, **49**
BARON, J. H.: Gastric secretion in relation to subsequent duodenal ulcer and familial history, **158**
—, *see also* LENNARD-JONES, J. E. *et al.*
—, *see also* MATTS, S. G. F. *et al.*
Betamethasone enemata in ulcerative colitis, **312**
Bile ducts, cytology of, **93**
— —, stricture of: prognosis, **94**
Bilharzial hepatic fibrosis, evaluation of bromsulphalein retention in, **318**
Blood ammonia levels, high, extracorporeal methods of reducing, **172**
— volume and plasma protein levels before and after gastrectomy, **149**
BOOTH, C. C., and HEATH, J.: The effect of *E. coli* on the absorption of vitamin B_{12}, **70**
BOOTH, C. G., *see also* JEEJEEBHOY, K. N., BOOTH, C. G., and COGHILL, N. F.

Mechanisms protecting against gastro-oesophageal reflux: a review MICHAEL ATKINSON 1
A study with the electron microscope of the jejunal epithelium in primary malabsorptive disease D. J. C. SHEARMAN, R. H. GIRDWOOD, A WYNN WILLIAMS, and I. W. DELAMORE 16
The arrest of intestinal epithelial 'turnover' by the use of *x*-irradiation G. WIERNIK, R. G. SHORTER, and B. CREAMER 26
The results of exfoliative cytology studies in 50 patients with symptoms of large bowel disorder J. I. BURN and R. A. SELLWOOD 32
Medical management of chronic gastric ulcer DAVID FERRIMAN 38
Excretion of formimino-glutamic acid in steatorrhoea J. P. KNOWLES 42
The diagnosis of primary tumours of the duodenum T. H. CRAWFORD BARCLAY and H. P. KENT 49
The late prognosis of perforated duodenal ulcer A. C. B. DEAN, C. G. CLARK, and A. H. SINCLAIR-GIEBEN 60
A comparison of a series of newer anticholinergic agents with atropine as regards their effect on saliva flow and gastric secretion in man D. W. PIPER and MIRJAM C. STIEL 65
The effect of *E. coli* on the absorption of vitamin B_{12} C. C. BOOTH and JANET HEATH 70
Serum studies in man after administration of vitamin A acetate and vitamin A alcohol II *In subjects suffering from disturbances of absorption and digestion* OLIVER FITZGERALD, JAMES J. FENNELLY, and DANIEL J. HINGERTY 74
The influence of sex and age on appendicitis in children and young adults J. A. H. LEE 80
The treatment of constipation in mental hospitals L. R. C. HAWARD and H. E. HUGHES-ROBERTS 85
Colonic irritability due to a mercurial bacteriostat in retention enemata S. G. FLAVELL MATTS, J. H. BARON, A. M. CONNELL, and J. E. LENNARD-JONES 91
The annual meeting of the British Society of Gastroenterology 93

No. 2 JUNE 1962

Selective surgery for peptic ulcer: a review IAN M. ORR 97
Peptic ulcer in hospital: An analysis of a 10% in-patient enquiry throughout England and Wales H. DAINTREE JOHNSON 106
Ribonucleic acid and protein metabolism in the gut R. G. SHORTER and B. CREAMER
Part I *Observations in gastro-intestinal cells with rapid turnover* 118
Part II *Observations in the fixed secretory cells of the gut* 125
An experimental study of gastric cancer in relation to gastric ulcer R. STEIN-WERBLOWSKY 129
Pancreatic heterotopia as a cause of dyspepsia R. D. TONKIN, T. E. FIELD, and P. R. WYKES 135
Redundant colon as a cause of constipation PEKKA BRUMMER, PENTTI SEPPÄLÄ, and UNO WEGELIUS 140
Idiopathic steatorrhoea with intestinal pseudo-obstruction H. A. MCCLELLAND, M. J. LEWIS, and J. M. NAISH 142
Subcutaneous fat necrosis, 'polyarthritis', and pancreatic disease P. F. LUCAS and T. K. OWEN 146
The blood volume and plasma protein levels before and after gastrectomy ALEXANDER SWAN, GEOFFREY T. ALLEN, and NORMAN C. TANNER 149
Gastric secretion in relation to subsequent duodenal ulcer and familial history J. H. BARON 158
The use of the colon as a substitute for the oesophagus P. J. CHRYSOSPATHIS, and B. GOLEMATIS 162
Peripheral ligation of the hepatic artery during surgery in non-cirrhotic patients M. ANDREASSEN, J. LINDENBERG, and K. WINKLER 167
Extracorporeal methods of reducing high blood ammonia levels H. D. RITCHIE, D. M. DAVIES, J. M. GODFREY, P. FAN, R. G. S. JOHNS, and J. PERRIN 172
The effect of anticholinergic drugs on the mucus content of gastric juice D. W. PIPER, MIRJAM C. STIEL, and BARBARA FENTON 177
Methods and techniques
Telemetering from within the body using a pressure-sensitive radio pill B. W. WATSON, B. ROSS, and A. W. KAY 181
Measurement of gastrointestinal transit using radioactive chromium J. HANSKY and A. M. CONNELL 187

No. 3 SEPTEMBER 1962
